

Currently Experiencing Network Issues

September 20, 2020

Dear Regional Pathology Services Clients,

We are currently experiencing network issues at our facility that is affecting all systems including NULIRT and RPS Pathway. Downtime procedures have been activated and additional staff have been called in.

This will affect all electronic orders and results from interfaced clients. If you have a STAT please call us at [1-800-334-0459](tel:1-800-334-0459) to alert us or indicate it on the requisition with a fax number to fax results to or a phone number where we can call results.

We are working to bring systems back up and will inform clients as soon as that happens.

Thanks for your understanding.

If you have any questions about interfaces please contact **Interface**
