Discontinuation of Urine Drug of Abuse Screen Test at Oakview Laboratory

Dear Regional Pathology Services Clients,

Effective Monday February 3rd the Oakview Laboratory will no longer be performing the Urine Drug Screen (Test Code: DOA) in-house. All Urine drug screens will be sent to main campus or the Bellevue laboratory. STAT requests will be sent to the Bellevue laboratory with a STAT, 1 hour courier for a quick turnaround time.

Specimen requirements are unchanged. <https://www.testmenu.com/nebraska/Tests/276883>

Below are the metabolites and reference ranges included in this drug screen.

Drug	Result (Reference Interval)
Amphetamines	Negative (< 1000 ng/ml)
Barbituates	Negative (<200 ng/ml)
Benzodiazepines	Negative (<200 ng/ml)
Cocaine	Negative (<300 ng/ml)
Methadone	Negative (<300 ng/ml)
Opiates	Negative (<300 ng/ml)
Phencyclidine	Negative (< 25ng/ml)
THC	Negative (<50 ng/ml)
Oxycodone	Negative (< 100ng/ml)

Interfaced Clients: Please replace test code DOA with test code DOAS.

Order Code	Order Name	Result Code	Result Name	LOINC	CPT
DOAS	DRUGS OF ABUSE URINE	BENZ	BENZODIAZEPINES	9428-4	80307
