Dominick DiMaio, M.D. specializes in the **diagnosis of skin diseases** at the Department of Pathology and Microbiology at the University of Nebraska Medical Center. Teamed with the diagnostic expertise of over **30 consultants**, reflecting **26 pathology specialties**, our board-certified dermatopathologist provides a single, diagnostically comprehensive and **customer-focused** consultation program. Service highlights include **individualized interpretation** of cases, **timely turnaround** of reports, **premier histology** facilities, customized service tiers, and a **dedicated client service** department. **Unique** among academic medical centers, these highlights combine to provide the **highest quality** and most **cost effective** consultation service available to the contemporary dermatology practice.

Customized Tiers of Service

Two main tiers of service encompass our dermatopathology programs flexibility.

Tier One includes slide preparation and second read, which will appeal to the dermatologist who expects high quality slide preparation along with the confidence of an expert second read. **Tier Two** provides a complete diagnostic service for the dermatologist, who's practice does not include slide review. **Both** tiers include 24 hour turn-around on slide prep, routine tissue reads and special stains. Most consultative second reads are available in 48 to 72 hours, depending on the extend of the ancillary testing. One phone number, **800.334.0459**, provides access to our consultant, diagnostic results, billing information, supplies and customer care staff.
