

## Dermatopathology Consultation Group

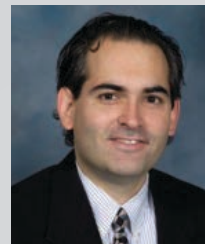

The Dermatopathology Consultative Group in the Department of Pathology and Microbiology at the University of Nebraska Medical Center provides a complete range of services in the evaluation and consultation of skin diseases. Our team of board certified dermatopathologists have extensive experience in the diagnosis of neoplastic and inflammatory skin diseases. Our service attracts consultations from dermatologists across the United States and internationally, including the rarest and most complex cases in the field.

### Highlights of our Services:

- Individualized interpretation of cases
- 24 hour turn-around on slide preparation, routine interpretations and special stains
- Turnaround of consultations within 48 to 72 hours
- Premier histology facilities producing the highest quality slides
- Bi-directional interface capabilities to your EMR for orders and results
- Web portal for results
- Direct immunofluorescence testing
- Dedicated client service department

### Multiple Levels of Service Available:

- Slide preparation only
- Slide preparation and interpretation
- Slide consultation/second opinions

#### **Dominick J. DiMaio, M.D.**

Dr. DiMaio is board certified in Dermatopathology and Anatomic Pathology. He completed his residency at University of Texas Medical School and his Dermatopathology fellowship at Stanford Hospital and surgical pathology fellowship at Washington University/Barnes Hospital-St. Louis.

Phone: 402-559-5233

#### **Scott R. Lauer M.D.**

Dr. Lauer is board certified in Dermatopathology and Anatomic and Clinical Pathology. He attended medical school at Saint Louis University School of Medicine, and completed his pathology residency training at Emory University School of Medicine in Atlanta, GA. Following residency, Dr. Lauer received fellowship training in soft tissue pathology under the direction of Dr. Sharon Weiss followed by a fellowship in dermatopathology, both at Emory University. Dr. Lauer has broad interests in dermatopathology, including diagnosis of soft tissue neoplasms involving the skin.

Phone: 402-552-9865
