## Epic Beaker Update #8 Additional Changes

Dear Regional Pathology Services Clients,

Nebraska Medicine/UNMC continues its transition to the Epic Beaker Laboratory Information System (LIS), integrating all laboratory departments with existing Epic applications. The go-live date is scheduled for **Saturday, June 6, 2026**. The updates outlined below, along with those from previous communications, will take effect at that time.

### ADDITIONAL CHANGES

#### Microbiology Culture Testing Updates

- CYNGN—Cytology non-genital will replace Eosinophil Smear, Silver Stain, Hemosiderin Stain and order entry questions have been added to CYNGN
  - Additional AOE questions have been added to gather additional information, details can also be included on the requisition.
  - Deactivate test codes CYEOS, CYSIL and CYHEM

#### Hematology Updates

- New test LYBL—Flow Cytometry Blood, use this test code for blood samples
  - Existing test LYO—Flow Cytometry Other, use this test code for bone marrow and other sample types
- PBSR—Peripheral Smear Pathology Review: no changes, except PDF result delivery will no longer be available through the interface if you currently receive them that way.

**TEST BUILD CHANGES IN THIS UPDATE:** A summary of Epic Beaker changes is available under the Information Systems tab: [Epic Beaker Updates](#).

CYNGN	LYBL	LYO	PBSR
-------	------	-----	------

**These changes will be implemented with the Beaker go-live, June 6<sup>th</sup> 2026.**

**Please use our RPS Interface Support group email for all items:**

[RPSInterfaceSupport@unmc.edu](mailto:RPSInterfaceSupport@unmc.edu)

**Community Connect Note:** To support our Community Connect partners who utilize RPS, updates on the project timeline and order-related changes will be included in your monthly RPS Lab Alerts.
