

Test Updates: Hepatitis A, IgG and SHELL Allergen Panel

Dear Regional Pathology Services Clients,

Please make a note of the changes to the tests below:

Hepatitis A, IgG

Effective April 15th, our reference laboratory is discontinuing the Hepatitis A, IgG antibody assay (test code: HAIGG). The only replacement test available is an in-house test for Hepatitis A, Total Antibody (Test code: HATOT). Specimen requirements are unchanged, one 6ml SST (Gold) tube.

Shell Fish, IgE Profile

Effective March 29th, new test code for the detection of shell fish, IgE will be offered (Test code: SHELL).
