## **Mycobacteriology (TB) Testing Resumed In-House**

Dear Regional Pathology Services Client,

Construction that impacted the Microbiology Laboratory has been completed, and all mycobacteriology (TB) testing will resume in-house.

Tests impacted:

- Culture, AFB, including acid fast stain (Test Code AFBCU)
- Culture, AFB, blood (Test Code AFBBL)
- AFB/Mycobacterium Identification (Test Code AFBIS)

Reports for cultures sent to ARUP will continue to final at 8 weeks; those tested at Nebraska Medicine final at 6 weeks.

TB Interferon Antigen Response testing, aka QuantiFERON TB Gold (Test Code TBINTF) was not affected.

We appreciate your understanding and patience during this time.
