
LAB ALERT

Date: August 23, 2021

Regional Pathology Services is a UnitedHealthcare Designated Diagnostic Provider

Dear Regional Pathology Clients,

Regional Pathology Services is pleased to announce that we have met UnitedHealthcare's quality and efficiency requirements to gain approval as a Designated Diagnostic Laboratory Provider (DDP).

UnitedHealthcare's provider directories and member materials now list Regional Pathology Services as a Designated Diagnostic Provider–Lab underneath the heading of Nebraska Medical Center.

Nebraska Medical Center

Laboratory

- ✓ Designated Diagnostic Provider: Lab
- ✓ Accepting All Patients
- ✓ In-Network Provider

UHC offers a new DDP benefit to protect patients from high-cost outpatient lab services while allowing them to access high-quality care. DDPs are laboratory providers that have met certain quality and efficiency criteria. Regional Pathology Services/Nebraska Medical Center qualifies as a provider for those who have the DDP benefit.

If you have question regarding UHC's Designated Diagnostic Provider program visit [UHC](#).
