

Interface Changes to Allergen Testing

Date: September 15, 2021

Dear Regional Pathology Services Clients,

In an effort to streamline allergen orders that come through our client interfaces, we have created individual order codes for each allergen instead of the single RAST order available previously. These new orders will be effective October 1st, 2021.

Please modify interfaces accordingly. Individual allergens can also be found on our test directory at www.reglab.org. If allergen is not listed in the table below please continue to order with order code RAST.
